

## **Psychiatric Rehabilitation**

Lecturer: Marta Bosia

H: 2.5

Credits: 0.5

Seminar: B

### *Description*

Psychiatric Rehabilitation focuses on person-centered and evidence-based sets of interventions aimed at facilitating the recovery of patients with mental illnesses.

The seminar will provide an overview on how to develop a rehabilitative program, focusing on neurocognitive, socio-cognitive and communicative interventions for patients with schizophrenia. Clinical and research implications will also be discussed.
