In this open seminar the final results of a two-year research project on “Quality of life and sustainable human development in an affluent society”, promoted by the Human Development, Capability and Poverty International Research Centre and financially supported by the Fondazione Lombardia per l’Ambiente, will be presented and discussed together with a group of international experts.

The research project was coordinated by Enrica Chiappero-Martinetti (University of Pavia and HDCP-IRC) and Stefano Pareglio (Catholic University of Brescia) and the research team also included: Luciano Canova and Paola Salardi (Catholic University, Milan), Enzo di Giulio and Stefania Migliavacca (Eni Corporate University, Milan), Emanuelle Massetti (FEEM, Milan), Michele Merola (Ambiente Italia, Milan) and Alessandro Vaglio (University of Bergamo).

An intensive workshop, open to a restricted number of invited participants, will be taking place after the seminar. Its objective is to share experiences among scholars working in this field of research.
