

# FIRST INTERNATIONAL WORKSHOP OF THE SIGNATURE INITIATIVE

EXPANDING KNOWLEDGE ON THE "CLINICAL USE OF SOCIAL  
COGNITION MEASURES FOR THE ASSESSMENT OF  
NEUROCOGNITIVE DISORDERS"

*The SIGNATURE consortium is an international study group involving clinicians, social cognition experts, methodologists, and stakeholders with the goal of promoting the implementation of social cognition measures in the assessment of patients with neurocognitive disorders. In this hybrid event we will discuss the state of the art in the use of socio-cognitive tools in memory clinics worldwide and priorities for their harmonization in the European and non-European clinical settings*

## SCIENTIFIC PROGRAM

### Socio-cognitive deficits in neurocognitive disorders

*Chairs: A. Ibañez & A. Padovani*
