## **TACKLING UNDECLARED WORK FOR A SUSTAINABLE ECONOMY: A BUSINESS REGULATION TOOLBOX**

The workshop is a part of the **PRO3** multi-disciplinary research project, titled “*Repress, promote, regulate. Innovate public policies on la-bour exploitation, between historical legacies and contemporary forms*” carried out in parallel by IUSS Pavia, Scuola Superiore Sant’Anna, and Scuola Normale Superiore. The project aims at identifying suitable actions to be carried out on the legal and institutional levels to overcome the socio-economic and cultural conditions in which phenomena thrive that degenerate into labor exploitation and discrimination. Grounded in rigorous theoretical foundations that enhance so-called responsive regulation, IUSS Pavia’s contribution to the project examines a set of business regulation tools that can be utilised, at the national and international levels, in the pursuit of the above stated policy goal, which is an inherent component of SDG8 (*Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all*). The workshop, organised in the form of a roundtable discussion, will present IUSS Pavia’s conceptual framework and interim research findings, focusing on various regulatory techniques, including non-financial reporting requirements, tax and fiscal measures, corporate sustainability due diligence obligations, duties of vigilance imposed on multinational companies with regard to their global value chain, new rules on whistleblowing, and evolving regulatory frameworks aimed at facilitating private enforcement mechanisms.
