

CURRICULUM VITAE

Personal information

ANTONIO CARONNI

M.D., Ph.D.

address Via Giacinto Gallina 10, 20129, Milano
phone number 388 7770233
E-mail antonio.caronni@gmail.com

Nationality Italian

Birth date 01/11/1980

Work experience

from April 2023 Researcher (RTDB)
on going Department of Biomedical Sciences for Health
Università Degli Studi di Milano
Via Giuseppe Colombo 71
20133 Milano

from November 2021 Consultant Physiatrist
on going Department of Neurorehabilitation Sciences
I.R.C.C.S. Istituto Auxologico Italiano
Ospedale San Luca
Via Giuseppe Mercalli 28
20122 Milano

from October 2018 Consultant Physiatrist
to November 2021 Neurological rehabilitation unit
I.R.C.C.S. Santa Maria Nascente
Fondazione Don Carlo Gnocchi Onlus
Via Alfonso Capecelatro 66
20148 Milano

from June 2015 Assistant Physiatrist
to September 2018 Neurological rehabilitation unit

Casa di Cura del Policlinico spa
U. O. di riabilitazione ad alta intensità di cure
Via Giuseppe Dezza 48
20144 Milano

Education and training

1999: High School Diploma, scientific studies (100/100), Liceo Scientifico G.B. Grassi, Saronno (VA).

2006: **Degree in Medicine** (M.D., 110/110 cum laude), Università degli Studi di Milano.

2008 – 2009: visiting research fellow at the Sobell Department of Motor Neuroscience and Movement Disorders, UCL, London (UK).

2009, **Ph.D. in Physiology**, Università degli Studi di Milano.

2015: Postgraduate Specialisation in **Physical and Rehabilitation Medicine** (70/70 cum laude), Università degli Studi di Milano.

2016, course in **clinical neurophysiology** of the Società Italiana di Neurofisiologia Clinica (*XXXVI Corso Teorico Pratico di Cultura in Elettromiografia e Neurofisiologia Clinica, Abano Terme*).

Clinical skills

As a **physiatrist**, I am devoted to rehabilitating patients with neurological diseases. I developed particular expertise in managing early **inpatient rehabilitation** after an acute neurological impairment (e.g. stroke, traumatic brain injury, acute polyneuropathies).

In addition, I am interested in the outpatient rehabilitation of peripheral neuropathies and other diseases of the peripheral nervous system. With this regard, I am also competent in **clinical neurophysiology** (mainly nerve conduction studies and electromyography).

Research skills

Expertise in the techniques for the study of the **Human motor control**, including movement and EMG recording, techniques for the assessment of Human spinal and cortico-spinal excitability (e.g. conditioning of the H-reflex, conditioning of the motor potentials evoked by the TMS) and repetitive TMS.

Expertise in **psychometric methods** for evaluating and developing questionnaires and scales (**Rasch analysis** in the first place).

Expertise in the use of clinical tests, force platforms and inertial measurement units for **balance and fall risk assessment**.

Expertise in **data analysis** with R.

Language skills

Native Italian speaker

English

Roles in scientific societies

from September 2021 (ongoing): member of the Regional Secretariat (Lombardy) of the Italian Society of Physical and Rehabilitation Medicine (Società Italiana Medicina Fisica e Riabilitativa, SIMFER)

from October 2021 to October 2023: member of the Board of Directors of the Italian Society of Movement Analysis in Clinics (Società Italiana di Analisi del Movimento in Clinica, SIAMOC)

Roles in scientific journals

from January 2023 (ongoing): Associate Editor of the International Journal of Rehabilitation Research

from December 2021 to January 2023: member of the Editorial Board of the International Journal of Rehabilitation Research

from July 2022 (ongoing): member of the Editorial Board of Frontiers in Neurology

Publications

Papers (57) on PubMed and Scopus or Web of Science

Leading position: 37 papers

First author: 23
Last author: 10

Corresponding in central position (\$): 4

H index (Scopus): 15

57) Derchi CC, Arcuri P, Comanducci A, **Caronni A**, Pagliari C, Viganò A, Volpato E, Navarro J, Trimarchi PD. Italian translation and cultural adaptation of the Agitated Behavior Scale (ABS-I) in patients with acquired brain injuries. *J Rehabil Med.* 2024

56) **Caronni A**, Picardi M, Scarano S, Rota V, Guidali G, Bolognini N, Corbo M. Minimal detectable change of gait and balance measures in older neurological patients: estimating the standard error of the measurement from before-after rehabilitation data thanks to the linear mixed-effects models. *J Neuroeng Rehabil.* 2024

55) Tesio L, Scarano S, **Caronni A**. Physical and Rehabilitation Medicine: say relational or functional, not holistic. *Eur J Phys Rehabil Med.* 2024

54) Perucca L, Scarano S, Russo G, Robecchi Majnardi A, **Caronni A**. Fatigue may improve equally after balance and endurance training in multiple sclerosis: a randomised, crossover clinical trial. *Front Neurol.* 2024

- 53) **Caronni A**, Picardi M, Scarano S, Malloggi C, Tropea P, Gilardone G, Aristidou E, Pintavalle G, Redaelli V, Antoniotti P, Corbo M. Pay attention: you can fall! The Mini-BESTest scale and the turning duration of the TUG test provide valid balance measures in neurological patients: a prospective study with falls as the balance criterion. *Front Neurol.* 2023
- 52) Guidali G, Picardi M, Franca M, **Caronni A**, Bolognini N. The social relevance and the temporal constraints of motor resonance in humans. *Sci Rep.* 2023
