IUSS Philosophy Seminars

Linguistics & Philosophy IUSS Center - Epistemology and Mathematics Series

Proof and Understanding in Mathematics (PUMa) Project

Joan Bertran San Millán (University of Lisbon)

Logicism and the mathematical context of Frege's early works

Tuesday, December 17, 2024, 14.00-16.00 CET

Agustín Rayo (MIT)

Transcendence and Emptiness

Wednesday, January 15, 2025, 14.00-16.00 CET

Rachel Boddy (IUSS Pavia)

How Inference can be Explained in Terms of Logical Consequence

Wednesday, March 19, 2025, 14.00-16.00 CET

Francesco Pisano (University of Naples)

Logic and Computation. A Case Study in the History of Logical Practice

Wednesday, April 2, 2025, 16.00-18.00 CEST

Øystein Linnebo (University of Oslo)

What is potentialism?

Thursday, April 17, 2025, 14.00-16.00 CEST

Tabea Rohr (University of Jena)

The Frege-Hilbert controversy in context

Wednesday, May 14, 2025, 14.00-16.00 CEST

Göran Sundholm (University of Leiden)

Ontological Descriptivism, A Hitherto Neglected Absolute presupposition in 20th Century Philosophies of Language and of Logic.

Wednesday, June 4, 14.00-16.00 CEST

Venue: Room: 1.17 ; Scuola Universitaria Superiore IUSS Pavia

Palazzo del Broletto, Piazza della Vittoria, 15, 27100, Pavia, Italy

Online venue: <https://iusspavia.zoom.us/my/br.aula1.17>

Convenors: R. Boddy, S. De Toffoli, A. Moro, A. Sereni, L. Zanetti

Info: rachel.boddy@iusspavia.it, andrea.sereni@iusspavia.it

Funded by: MUR PRIN 2022TYNY32 – Proof and understanding in mathematics. Purity of methods, simplicity, and explanation in mathematical reasoning (funded by NextGeneration EU).
