

INTEGRATING ENGINEERING AND ECONOMICS IN FLOOD RISK ASSESSMENT FOR CLIMATE ADAPTATION

EVENT DETAILS

15-16 APRIL

Scuola Universitaria Superiore IUSS
Palazzo del Broletto, Pavia

[Click here](#) to register

What to expect

- High-level keynote lectures from leading scholars bridging engineering and economics in flood risk assessment for climate adaptation.
- Advanced methodological insights on infrastructure modelling, systemic risk, behavioural dynamics, and agent-based approaches to flood adaptation.
- Interactive discussions on research challenges and policy implications, integrating physical risk modelling with economic evaluation to support resilient adaptation strategies.

INVITED SPEAKERS

Tatiana Filatova
Professor at the Faculty of
Technology, Policy and
Management.
University TU Delft

Raghav Pant
Senior Research Associate
at the Environmental
Change Institute,
University of Oxford
